**Mr. Curt Paul**

The Paul Construction Company, Inc.  
1702 Chandlersville Road  
Zanesville, Ohio 43701

**Re;           Letter of Recommendation**

**Curt,**

As I write this letter, we are wrapping up a few major projects that I think your firm should take pride in being a part of. Most notable of these projects are the additions and renovations to the "Genesis HealthCare System EP Cath Lab Addition / Renovation", "Avon Distribution Facility" and "Zanesville City School District's New North Elementary School".

During Phase I of Zanesville City School District's new facilities master plan, you proved to be an ally to the end product, as well as the owner's objective. Your firm proved itself through quality craftsmanship and attention to detail.

Your performance on Phase II of Zanesville City School District's new facilities was no different. Your ability to look forward and stay one step ahead kept this project on schedule and running smoothly. Many times after the days work was done and others had gone home, we would meet to discuss solutions to challenging issues. Your ability for keeping the lines of communication open makes my job that much easier and that much more enjoyable. As all Owner's know, safety is one of the most important, if not the most important factor of a construction project. The New North Elementary jobsite was located no more than 50 feet from an operating elementary school, which made the task of running a safe project that much more difficult. You had to concern yourself with not only the safety of your staff, but of the children playing no more than a stones throw away.

The work completed at Avon, compounded safety considerations even further as the renovations were taking place in a fully functioning manufacturing facility. Your company proved that it could perform the necessary tasks with minimal impact to the functionality of the plant.

Curt, I have known you both personally and professionally for many years, and I have always known you to be open and honest and to always have a sincere interest in turning over nothing less than a quality project. All of these attributes are reasons that I have recommended The Paul Construction Company to clients of mine in the past, and will continue to recommend The Paul Construction Company in the future.

I look forward to working with you again very soon.

Sincerely,

**Brian Addis, A.I.A.**
